

## EXECUTIVE ESSENTIALS SERIES

# Tailings Risk & Governance

### DIGITAL MASTERCLASS

An essential guide to tailings management responsibilities, accountabilities and liabilities for Executives, board members, investors and insurers

With a continued focus on the safe and effective management of tailings facilities driving increased accountability and liability for mining company executives, maintaining a baseline understanding is critical for senior management. This 90-minute masterclass has been designed to give Executives a concise overview of tailings management from a risk and governance perspective, in the light of recent catastrophic tailings dam failures and the requirements of the resulting Global Industry Standard on Tailings Management (GISTM).
