# OPEN PIT OPERATORS’ 2016 CONTENTS

## Automation – Innovation – Research and Development

Autonomous Haul System Savings – It’s Not about Less Truckies but Better Truckies!

*B H Miller and R Price*  
Page 2

Autonomous Haulage Systems – the Business Case

*R Price*  
Page 11

## Blast Fragmentation and Mine to Mill

Reducing Bench Turnover Time and Improving Shovel Digability

*C Michaud and D Kavanagh*  
Page 19

A Fine Looking Sample – the Importance of Fines in Grade Control Sampling to Mine to Mill Reconciliation

*B Reid*  
Page 28

Controlling Blast Related Fumes with Unconventional Explosives

*J Rock and K Bambrook*  
Page 39

Optimisation Improvements for Narrow Vein Open Pit Deposits Using Mineable Shape Optimiser

*S Swapp and C Mann*  
Page 50

High Energy Bulk Explosives and Mine to Mill Focus – the Mt Rawdon Story

*G Wallace and D Morton*  
Page 60

## Driving Improvement

Measuring the Effectiveness of Change through Best Practice Reconciliation

*R Hargreaves, G Pattenden and P Pettit*  
Page 71

Getting the Most out of Technology to Drive Mine Productivity Improvements

*J Parkinson and K Sommerville*  
Page 84

## Geotech – Case Studies

The Journey to Steepening the Pit Slope Angle – Advancing the Effectiveness of Wall Control

*C C Graf and R Sullivan*  
Page 95

Determination of the Transition Point from Open Pit to Underground Mining

*J Chung, M Asad, E Topal and A K Ghosh*  
Page 96
Remediation of Wall Failure at Kalgoorlie Consolidated Gold Mines’ Golden Pike Cut-back 2016
J Darbritz

A Case Study on the Assessment, Planning and Extraction of the Crown Pillar at Sunrise Dam Gold Mine
A Robeson, M Cowan and M Brockman

Geotech – Innovation

Innovative Approach to Open Pit Edge Protection
S Durkin, N Fowkes, N Redwood and A Bassom

Adapting to Geotechnical Change – a Case Study of the Carina Open Pit Mine
M Fowler, D Strang and R Jaine

Application of Shuttle Radar Topography Mission Data in Hydrological Analyses of Super Pit and Griffin Coalmine
A K Ghosh

Trials, Tribulations and Triumphs of Unmanned Aerial Vehicle Surveying at St Ives Gold Mine
R Steven

Justifying Slope Design Risks and Costs
R P Varden, J R Player, N M Player and E Jones

Load–Haul–Dump

Getting Accurate Mine Information to the Right Teams to Drive Production Improvement
R Beckman, T Elms and M Sampson

Optimum Management of Truck Tyres in a Mine
S Casas Castellanos

A Modified Software Tool for Mine Waste Rock Dump Planning
Z Fu, E Topal and O Erten

Driving Haulage Productivity Improvements through Industry–Academia Collaboration
D Handel, J Miedecke, R Thompson, E Tomicek and D Tulloch

What’s Stopping You? The Role of Sheeting Material Selection in Safe Haulage Operations
R Thompson and D Tulloch

A 3D Discrete Event Simulation Model of a Truck-shovel Network System
W Zeng, E Baafi, D Walker and D Cai
Maximising Outcomes through Planning

In-pit In Situ Recovery – a New Approach That May Allow for Increased Value Extraction before Pit Closure
   L L Kuhar and D J Robinson 275

Use of Robust Design Methodology for Production Scale Definition in Open Pit Mining
   C J Poblete, M A González, J A Romero, D L Fuentes and O Abrachtova 284

Regulatory Framework and Adapting to Change

Everyone Has a Plan Until They Get Punched in the Mouth – Creating Trust, Commitment and Results in Tough Times
   P Moynagh 293

Author Index 300
