

CONTENTS

<i>Non-Geological Reserve Considerations - An Introduction</i>	G R Appleyard	1
----------------------------------------------------------------	---------------	---

Non-Geological Reserve Inputs

<i>Mining Dilution and Losses in Underground Mining</i>	P L McCarthy	5
<i>Metallurgical Variability and Certainty</i>	R Burns	9
<i>Towards a Broader View of Cut-Off Grade in Resource Estimation and Reserve Reporting</i>	N Hanson	11
<i>The Gold Price, Markets and Forward Sales Programs</i>	G Madden	17

Reserve Estimation

<i>Techniques of Resource Estimation and Conversion to Reserves - Conditional Simulation</i>	D Guibal	23
<i>The Relationship Between Economic Design Objectives and Reserve Estimates</i>	D Whittle	27
<i>Impacts of Mining and Metallurgical Factors Upon Ore Reserve Calculations</i>	Dr P Vassiliev	31

Feasibility and Risk

<i>Treatment of Capital in Reserve Estimation</i>	R Watkins	35
<i>Key Risk Areas and Sensitivities for Project Financing</i>	I Burvill	37
